Los Angeles Cal:-
Dec-6-16

My dear Edith:-

Billy made cold morning and I have cold with it. Joe started to work yesterday but he is not well by any means, but would go to work. I am afraid I am going to have the grippe too but am trying to avoid it.

Bazaar is the church Bazar and every year I work so have sick but am going to take it easy this time but going to be there just the same.

Had thought I would come down Friday but am afraid to plan to for fear I will not be well enough - and then if I do not come Friday - cannot come until a week today - Would like

to get the things attended to and settled. Nettie wants to sell the piano $150 cash or have it shipped to her and Aunt Nell will pay the charges for the use of the piano for a little while. Evelyn and Lucile want to take lessons and Nettie gets me to Canton almost every week end. He is going to find out how much it will cost.

I could sell it for her at $5 a month, but she says that would mean owing it to her where she could take so much use of the money in a bunch. She says Aunt Nell will buy it if she will sell it when she gets it home.

She says she needs everything underwear coat, shoes, and night dresses.

I have been trying to do a little
sewing but seems I cannot get
anything accomplished
Feel sometimes I would like to
get so far away from city
where I wouldn't hear telephone
or door bell, or see a st car.
Want to send this in town with
a neighbor. so must hurry
If I feel alright - I will come
friday. but it is very doubtful
Want to make one express charge
do so want to find out about
the piano and have the things
all brought up at once.
Trust all are well -
Let me hear from you
Lovingly -
Maude.
